

Semen Shipment Policy

Saddle Brook Stables has been actively shipping semen for over ten years. We have had a very high success rate and we do everything we can within reason to insure a good collection. Shipped semen is selectively offered on individual stallions and available at the discretion of Saddle Brook Stables. We recommend that the mare owner contact Saddle Brook Stables in reference to their needs for further discussion. We collect our stallions on an as needed basis so we do not consistently check the semen quality. We do however insure that all our stallions are breeding sound. We guarantee to collect semen based on the recommendations of a licensed veterinarian that specializes in equine reproduction. We further guarantee that the semen will be handled by a well trained and experienced individual to insure the best outcome possible. However, the mare owner should be aware that the quality of semen can be highly variable. The mare owner assumes all risk involved with the unpredictability of semen quality and releases Saddle Brook Stables from any liability in regards to the collection process, shipping process, and semen quality. The cost for shipping will be \$250. Saddle Brook Stables requires that the mare owner has paid the stud fee and the shipping cost in full prior to shipment. Payment options are available through Paypal on our website at www.twhfarm.com. Please contact us with any concerns. We highly recommend that your mare is in high quality breeding condition in order to insure success by shipped cooled semen.
